

### Portfolio Task 4: Revised Abstract

In our 11<sup>th</sup> course meeting, you received peer-feedback on your abstract for your research project. Revise your abstract and make sure it fulfils the requirements we were discussing in our 10<sup>th</sup> meeting (13 January).

Among them were the need to mention the context of the work and the research question(s), just as naming the specific methodology and the selected corpus. It should briefly state the most important results and their implications, thereby summarising your research in a concise and academic way. Additionally, you should add three to five keywords describing your future paper and a title.

Please make sure it

- accounts to about 200 words,
- has a header with your name, date, matriculation number **and examination number** for the course,
- is uploaded until February 1<sup>st</sup>, 2022, on StudIP in the folder titled “Upload Folder Abstracts” (under Tasks) or sent directly to me via email until 11:59 pm latest.

If there are any questions, don't hesitate to reach out to me at [regina.holze@uni-passau.de](mailto:regina.holze@uni-passau.de).
